

Water Mat

Help babies move the objects around the water mat with their fingers.

### Oil and Water Sensory Bag

Add colored oil to water in a gallon size ziplock bag. Allow babies to move the water around with their hands and fingers.

Water play in a tray

Add a very small amount of water to a tray and lets babies splash and move objects around in the water.

Add water beads or ocean animals to water bottles and let babies shake them up and roll them around.
